The “Wife / Girlfriend / Babies / Momma” Deal

Only available to Nassau

There has never been a better time to get your girl up and riding and sharing the stoke with you for kiteboarding (now you can justify having a 10 kite and 4 board quiver because she can use all of the in-between sizes). The Rider gets the Cross-shore Kite Caddy service, including pick up and drop off to and from the beach to and from the hotel. We will set up your gear (pump up your kite/kites and run your lines) and launch you and catch you. Drinks and Snacks are also provided.

If your girl signs up for a 5 day beginner course, you will also get free hi-res pics of your Kiteboarding experience and a free Cross-shore t-shirt.

Disclaimer

In paying a 30% deposit, Students acknowledge that they have read and understand the following:

- the 30% is a non refundable deposit
- the rates for Instruction and Riding and once they ride students will be charged the remainder of amounts due of instruction
- all Students will be IKO certified. Advanced Riders without IKO certification will also be certified to their level
- in the event of no wind, Students will have the option of wakeboarding, kayaking or snorkeling, in which case they will be charged accordingly
- lessons falling on a weekend or Bahamian Public Holiday will incur an extra \$50 charge per day per student. (Advanced IKO Level 3 Riders are exempt from this extra charge)
- All Riders, from Beginner to Advanced will sign Cross-shore waiver forms

Students stating the wrong level of experience:

- we reserve the right to charge the Student accordingly. For example, if a Student states they are an Intermediate Rider and can stay up wind, but fails in attempts to do so, the lesson rate will be adjusted accordingly
- Students stating they are using their own gear, but deciding to use the Schools gear will be charged accordingly

The 20 knot Rule:

- to protect Students from injury, the School closes if wind speeds reach 20 knots unless Student is an Intermediate Plus or Advanced Rider (to be determined by Instructor as conditions arise)
- Riders with own equipment must have correct sizes kites for conditions
